Consider it
DONE!

At LCM Service Is Job One!

It's our commitment to each and every customer before, during and after the sale. LCM's team of seasoned valve technicians, with their years of valve and application knowledge, are committed to providing the best service and solutions to keep your project on schedule and

in compliance. Whether you need new control products, manufacturer authorized service and repair, or pressure relief valve recertification, when we receive your request, Consider It Done and done right the first time.

Quality Name Brand Products

LCM stocks the largest inventory of pressure relief valves and control products in East Texas that includes Farris Engineering relief valves, Oil States Piper Valve compact manifold ball and check valves, and Dyna-Flo control valves and actuators. We also carry a complete line of OEM manufacturer replacement parts for our valves and others. LCM continues to lead by expanding their valve and control product offerings, professional repair and recertification services for oil & gas, industrial, petrochemical, chemical and general processing industries.

Faster Deliveries

LCM's off-the-shelf solutions and special order valves & controls are generally assembled to order within hours or days from the time of order for the fastest deliveries available. Whatever your valve and control needs are, when you need it now, rely on LCM Industries.

CONSIDER IT DONE.

Service and Repair Where and When You Need It

LCM's machining, assembly and testing facilities are equipped with the latest technology and equipment for quick and accurate valve maintenance, repair, and recertification services for our valves and other manufacturers' valves. We offer inhouse and onsite service with LCM's state-of-the-art mobile repair cells which can provide repair services at your location for even quicker service. Our service group is on call 24 hours a day, every day.

CONSIDER IT DONE.

Farris Authorized Service Team

LCM is a Farris Authorized Service Team "FAST" Center, manufacturer's representative, and ASME code assembler for Farris pressure relief valves. LCM is also a code pressure relief valve repair facility and national board "VR" stamp holder for pressure relief valve repair. We take quality and service to another level with ongoing technical training and education.

Maintenance

Utilize LCM's "FAST" Center to properly maintain your systems relief valves with authorized aftermarket service, repair and recertification. LCM also offers parts and repair for other PRV equipment.

Off-The-Shelf Valve Solutions

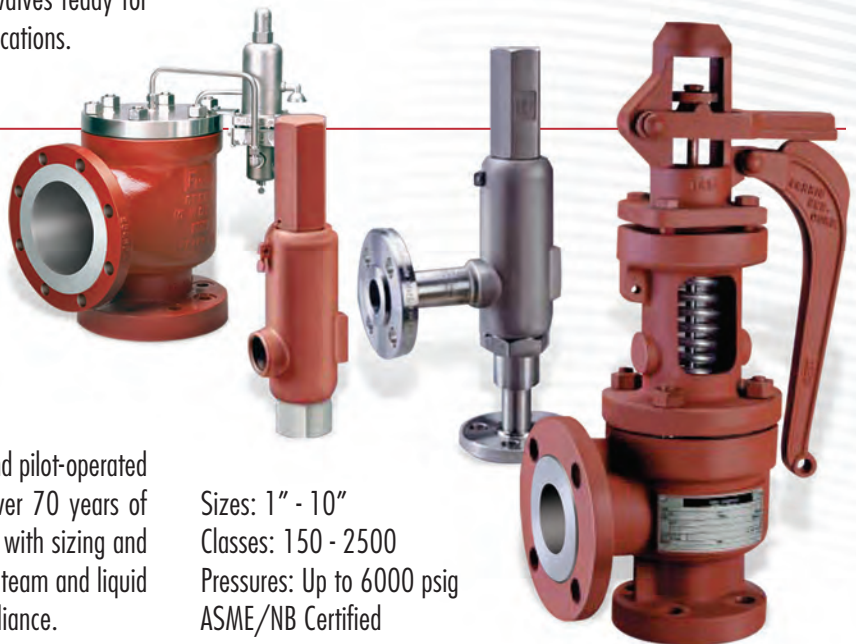

LCM stocks a large inventory of loosely assembled valves ready for modifications and final assembly to meet your specifications.

Farris Pressure Relief Valves

Update your plant with original Farris spring loaded and pilot-operated PRV equipment. You'll know you're protected by over 70 years of Farris manufacturing experience. LCM can assist you with sizing and selection of Farris pressure relief valves for gas, air, steam and liquid applications to ensure plant safety and system compliance.

Sizes: 1" - 10"
Classes: 150 - 2500
Pressures: Up to 6000 psig
ASME/NB Certified
